HighOnLove® is...

HighOnLove's Creator and Founder Angela Mustone knew she was on to something...

After years of research and world travel, Angela's hands-on immersion with the world's finest botanicals and life-enhancing ingredients... HighOnLove was born.

Crafted with luxurious blends of premium grade cannabis seed and essential oils, HighOnLove's products reflect the highest principals and cosmetic standards set forth by its creator.

Angela's moment of clarity came on while traveling to the Far East researching cosmetic blends. There she experienced her first epiphany that the mind and body connect so much more intimately when blending the transformative benefits of cannabis oil with pure aromas, and a dose of romance.

HighOnLove's oil blends are transforming romance, bringing a new level of sensuality to skin care, reshaping intimacy and spoiling everyone it touches, because you deserve nothing but the best.

From blissful bath oils to luxurious massage candles and the brand's cult fave Stimulating Sensual Oil, each product is crafted in small batches to ensure the highest quality. The HighOnLove line is a feat of alchemy, elevating self-care and intimacy for a discerning clientele.
